*"We know that all things work together for good to those who love God, to those who are called according to His purpose."  
— Romans 8:28*

**Welcome to the Oliphant Angus  
11th Annual Performance Genetics Bull Sale  
Thursday, March 31, 2011  
Selling at 1:00 pm  
at Winter Livestock Sale Barn,  
Dodge City, Kansas**

We are excited about the 50 two year old angus bulls and 34 commercial open heifers. There is a lot of performance in these cattle with great genetic, maternal, and growth potential. We know this has reached you within a short time frame to our sale date as we have been dealing with a family health issue that we made our top priority. These two year old bulls are solid and ready to go to work for you and have our guarantee on them. They have been vaccinated and tric tested free and have undergone a breeding soundness examination. Many customers have commented on the uniformity of their calf crop both steers and Replacement heifers. We believe the cow side of our herd is second to none in maternal genetic status The sire of these bull stand at the top of the angus breed, and allow you the ability to enhance both your cow herd and calf performance both on the grid and at the market place as well as in your replacement females. We can help on delivery arrangements of your purchases. Let us know if we can help.

*See us at the web at [www.Oliphantangus.com](http://www.Oliphantangus.com) a sort able spread of the  
bulls*

*Lunch will be served at 11:00*
